## GOAL 11: SUSTAINABLE CITIES AND COMMUNITIES

Goal 11 is about making cities and human settlements inclusive, safe, resilient and sustainable.

Cities represent the future of global living. The world's population reached 8 billion on 2022 over half living in urban areas. This figure is only expected to rise, with 70 per cent of people expected to live in cities by 2050. Approximately 1.1 billion People currently live in slums or slum-like conditions in cities, with 2 billion more expected in the next 30 years.

However many of these cities are not ready for this rapid urbanisation, and it outpaces the development of housing, infrastructure and services, which led to a rise in slums or slum-like conditions.

Urban sprawl, air pollution and limited open public spaces persist in cities.

Good progress has been made since the implementation of the SDGs in 2015, and now the number of countries with national and local disaster risk reduction strategies has doubled. But issues still remain and in 2022, only half of the urban population had convenient access to public transport.

Sustainable development cannot be achieved without significantly transforming the way urban spaces are built and managed.

SEMESTER: 7<sup>th</sup>

#### The Book Bank

The "The Book Bank" initiative in government schools is designed to promote sustainable use of educational resources and reduce paper wastage by encouraging students to reuse and recycle textbooks. This initiative aims to lessen the environmental impact associated with paper production, decrease the financial burden on families and build a culture of sharing and sustainability within the school community.

#### Objectives

- **Reduce Waste:** Minimize the environmental impact by reusing and recycling textbooks, decreasing demand for new paper.
- **Create a Sustainable System:** Establish an organized book exchange system within schools, which encourages ongoing reuse of academic materials.
- **Foster Community Engagement:** Encourage a culture of resourcefulness and community involvement among students, teachers, and staff.

**Dr. Faryal Chaudhry facilitated in arranging transport for KC Students to participate in the activities of the Lahore Science Mela; Dated: 28th Oct, 2023**

## SUSTAINABLE DEVELOPMENT GOAL 11

**Dr. Faryal Chaudhry facilitated in arranging transport for KC Students participate in STEM Project Exhibition Organized by UET, Lahore where they presented two projects; “Plastic Waste into Fuels” & “Impact of Vitamin B12 Intake on Energy Levels and Fatigue”;**  
**Dated: 13th February, 2024.**

**Dr Anum Hayat completed an International course “3rd Women’s Leadership in Asia: Shaping Our Future” from August 19 to August 30, 2024, hosted by Ewha Woman’s University, Korea**

**Student Conducted sessions in communities and Dar-ul-Aman Centres on Women Menstrual Care**
