4: Campus Cleanliness Drive (19th September, 2025)

In collaboration with the class of character development course, a campus wide cleanliness drive was launched which went on for three successive weeks. Students actively participated in collecting waste, promoting a culture of shared responsibility and building a healthy environment.

Campus Cleanliness Drive (19th September, 2025)

5: Visit of Marriyum Aurangzeb for Environmental Awareness (23rd October, 2025)

Kinnaird College was honored to host Marriyum Aurangzeb for an environmental awareness session focused on the importance of combating smog and promoting sustainable green initiatives. The visit concluded with a ceremonial tree plantation, symbolizing a shared commitment to environmental conservation and a healthier future.

Visit of Marriyum Aurangzeb for Environmental Awareness (23rd October, 2025)

6: Smog-less Punjab (17th November, 2025)

Conducted a focused awareness and policy- oriented addressing one of Punjab's most challenging environmental issues; Smog. Captain Zaina Khan delivered a strategic presentation on long-term solutions for achieving a smog less Punjab.

Smog-less Punjab (17th November, 2025)

7 : UNDP Event

Kinnaird College hosted a collaborative event with the United Nations Development Programme (UNDP) to promote awareness of sustainable development, civic engagement, and social responsibility. The event featured interactive sessions that encouraged students to explore innovative solutions to contemporary social and environmental challenges.

UNDP Event

8: Eco-tour by Kinnaird Green Youth Movement (23rd April, 2026)

The Kinnaird Green Youth Movement Club organized an Eco Tour at Jallo Park on 23rd April, engaging students, members, and faculty in an enriching environmental experience. Participants explored the Botanical Garden and Butterfly House, gaining insights into diverse flora, fauna, and butterfly species. In observance of Earth Day, a plantation drive was conducted to promote sustainability and environmental restoration. The tour concluded with a visit to the animal breeding area, highlighting wildlife care and conservation efforts.

Eco-tour by Kinnaird Green Youth Movement (23rd April, 2026)

9: Green Shift Session (5th May, 2026)

The Kinnaird Green Youth Movement Club successfully concluded its 2025–26 tenure with “Green Shift: Environment, Health and the Future”, a meaningful final event celebrating sustainability, science, health, and youth leadership. The session opened with the Arts and Floriculture Exhibition, showcasing innovative student projects from the Department of Biological Sciences, followed by insightful talks from **Tariq Zaman, Dr. Izhar Khan, and Altamush Saeed** on health, environmental advocacy, and youth empowerment.

10. Seminar on SUPs at Alhamra

A seminar on **Single-Use Plastics (SUPs)** was attended to raise awareness about the environmental impacts of plastic pollution. The session highlighted sustainable alternatives and encouraged responsible consumption to reduce plastic waste.

Seminar on SUPs at Alhamrah

11. Talk on From Disposable to Sustainable: Empowering Women, Enchanting Planet

The talk emphasized the importance of adopting sustainable lifestyles through environmentally responsible choices and women's active participation in promoting sustainability. Participants were encouraged to reduce waste and support eco-friendly practices.

Talk on 'From disposable to sustainable: Empowering Women, Enchanting Planet'

12. Celebrating World Environment Day

World Environment Day was celebrated through awareness activities promoting environmental protection, biodiversity conservation, and sustainable living. The event encouraged students and faculty to adopt environmentally responsible practices.

Celebrating World Environmental Day

13. KC Science-Fest Promoting Green Innovations and Eco-Reel Challenges

KC Science-Fest showcased innovative student projects focusing on green technologies and sustainable solutions. The Eco-Reel Challenge further engaged participants in promoting environmental awareness through creative digital campaigns.

Attended KC Science-fest promoting Green Innovations and Eco-Reel challenges.

14. Zoology Seminar: Restoration and Conservation of Biodiversity is Important for Future Sustainability

The seminar highlighted the significance of biodiversity conservation and ecosystem restoration in achieving long-term environmental sustainability. Experts discussed strategies for protecting natural habitats and preserving biological diversity.

Zoology Seminar: "Restoration and Conservation of Biodiversity is Important for Future Sustainability"

15. Arts and Floriculture Exhibition

The Arts and Floriculture Exhibition showcased creative artwork and diverse plant displays to promote appreciation for nature and environmental sustainability. The exhibition encouraged awareness of biodiversity, urban greenery, and eco-friendly practices.

Attended Arts and Floriculture Exhibition, May 2026.

16. Floral Fest

Floral Fest celebrated the importance of plants, flowers, and green landscapes in creating a healthy and sustainable environment. The event promoted environmental appreciation and encouraged participation in greening initiatives.

Floral Fest

17. 3rd International Conference on Recent Approaches in Plant Sciences (2025)

The conference brought together researchers and academicians to discuss recent advances in plant sciences, biodiversity, conservation, and sustainable agricultural practices. It promoted research collaboration and knowledge sharing to support environmental sustainability and future ecological resilience.

3rd International Conference 2025
